

## ITAB

- 
- The image displays two perspectives of the same circular LED ceiling light. The top view shows the light with a black outer ring and a silver-colored inner ring. The bottom view shows the light with a silver-colored outer ring and a black inner ring. Both views show a central circular lens with a textured, diamond-patterned surface.

A technical drawing of a roof structure, likely a dome or a vaulted ceiling, showing a cross-section. The structure is supported by a base. The width of the base is labeled with the Greek letter  $\Delta$ . The height of the structure from the base to the top is labeled with the letter  $H$ . The drawing shows internal structural elements, including a central vertical support and several curved ribs or struts that form the roof's profile.

A= 160mm, B= 106mm
