

ITAB

-
- The image displays two views of the LED ceiling light. The top view shows the light with a black trim ring, and the bottom view shows it with a silver trim ring. Both views show the central lens with a faceted, diamond-like pattern.

A technical drawing of a roof structure, likely a dome or a vaulted ceiling, showing a cross-section. The structure is supported by a base. The width of the base is labeled with the Greek letter Δ . The height of the structure from the base to the top is labeled with the letter H . The drawing shows internal structural elements, including a central vertical support and several curved ribs or struts that form the roof's profile.

A= 160mm, B= 106mm
